

BEHAVIORAL HEALTH SERVICES DIAGNOSIS CODE TABLE
EFFECTIVE OCTOBER 22, 2002
PM ATTACHMENT 7.5.4

The following table provides a listing of Behavioral Health Services diagnostic coding for billing and enrollment purposes.

The first “Diagnosis Code” column contains all available ICD-9 Code numbers to be billed/encountered for behavioral health services. For all encounters, claims, or enrollments, only a valid ICD-9 code from this column may be used. Please note that the ICD-9 codes provide many more options for coding purposes than does DSM-IV.

The second “ICD-9 Code Only” column identifies those codes that exist in the ICD-9 only, and are not present in the DSM-IV TR (Text Revision, published year 2000) or DSM-IV TM (prior version).

The third and fourth columns provide a listing of the DSM-IV TR and TM codes that correlate with an ICD-9 code for billing and enrollment purposes. These lists are all inclusive of the listed diagnoses in DSM-IV. For clinicians who are more familiar with DSM-IV diagnoses and coding, it is important to note that several codes for diagnoses that existed in the DSM-IV TM, were changed/deleted, and are no longer available in the DSM-IV TR version.

The fifth column provides the date when the ICD-9 code became effective for use.

The sixth column shows the “End Date” for each ICD-9 code. The end date notes the ICD-9 codes that are used for billing of encounters and claims, and enrollments, only for services provided prior to the end date listed (date in gray). For services provided after the end date, these ICD-9 codes are no longer accepted.

The seventh column lists the diagnostic descriptions as provided in the ICD-9.

Columns 8 through 11 identify specific gender and age requirements for certain ICD-9 codes.

The 12th column denotes ICD-9 codes for SMI behavioral health category assignment per ADHS/DBHS Provider Manual Section 7.5, Enrollment, Disenrollment and Other Data Submission.

The 13th column denotes ICD-9 codes for General Mental Health behavioral health category assignment per ADHS/DBHS Provider Manual Section 7.5, Enrollment, Disenrollment and Other Data Submission.

The 14th column denotes ICD-9 codes for Drug or Alcohol behavioral health category assignment per ADHS/DBHS Provider Manual Section 7.5, Enrollment, Disenrollment and Other Data Submission.

The 15th column denotes ICD-9 codes for SED behavioral health category assignment per ADHS/DBHS Provider Manual Section 7.5, Enrollment, Disenrollment and Other Data Submission.
